Insulated steel doors, Models S2RSF, S4RSF, S6RSF and S5ESV/S5SV are energy-efficient, beautiful and long-lasting. Available in two steel gauges, three panel design options and four finished painted surfaces, these doors are built to complement any home style while providing years of virtually maintenance-free use. Tongue-and-groove joint designs along with a rust-free aluminum bottom weatherseal retainer and vinyl weatherseal help seal against the elements. Attractive and reliable, IDEAL Door is the smart choice!

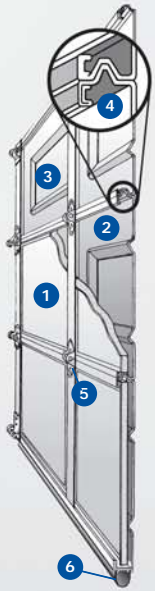

Due to printing process, colors may vary. Please request an accurate color chip. S5ESV/S5SV available only in white and brown.

Features

- 1 Steel construction**
S2RSF/S4RSF doors are made of heavy-duty 24-gauge steel and include polystyrene insulation, with an R-value of 5.8, for comfort and energy efficiency.
S6RSF doors are made of 25-gauge steel and include polystyrene insulation, with an R-value of 5.8, for comfort and energy efficiency.
S5ESV/S5SV doors are made of 25-gauge steel and include polystyrene insulation for comfort and energy efficiency, and an R-value of 6.6.
- 2 Virtually maintenance-free**
Prefinished exterior surface can be painted to match the decor of any home.
- 3 Panel design**
S4RSF and S6RSF feature Classic Raised Panels and the S2RSF features a Long Ranch Panel, all with a natural woodgrain texture to complement your home's design. S5ESV and S5SV feature deep-ribbed designs with woodgrain (S5ESV) or smooth (S5SV) surface.

- 4 Tongue-and-groove joints**
Provides a superior weather-resistant seal at each section joint and ensures better door alignment.
- 5 Door hardware**
Galvanized steel hardware is standard on all models.
- 6 Bottom weatherseal**
Replaceable weatherseal helps seal out the elements. Aluminum retainer is rustproof.

Paint System

Steel skins are protected from the environment through the use of a tough, layered coating system, starting with a layer of hot-dipped galvanizing and a protective metal oxide pretreatment, followed by a baked-on polyurethane primer and a tough, weather-resistant polyester top coat, creating a virtually maintenance-free surface.

Patented Safe-T-Bracket®

Bottom bracket cannot, under normal circumstances, be removed while door is under tension.

Galvanized Torsion Springs

Durable, corrosion-resistant galvanized torsion springs function for up to a 50% longer life and present a more attractive, polished appearance.

Step Plate/Grip Handle

Color-matched exterior step plate/grip handles are durable, attractive, and allow for safe opening and closing of your door.

Door Width	# Panels/Windows Across	
	S4RSF,S6RSF	S2RSF
8', 9'	4	2
10'	5	2
12'	6	3
