**Ranch Panel Insulated  
Garage Door**  
with woodgrain exterior finish

Model S2RST/2RSF shown in white with optional Ranch Brass Flame Designer Classics Window Lites.

- 24-Gauge Steel Construction
- Maintenance-Free Finish
- Insulation Available (S2RSF)
- Attractive Ranch Panel Design with Woodgrain Texture
- Tongue & Groove Joints
- Four Finish Painted Colors
- A Variety of Decorative Window Lite Design Options
- Limited Lifetime Warranty

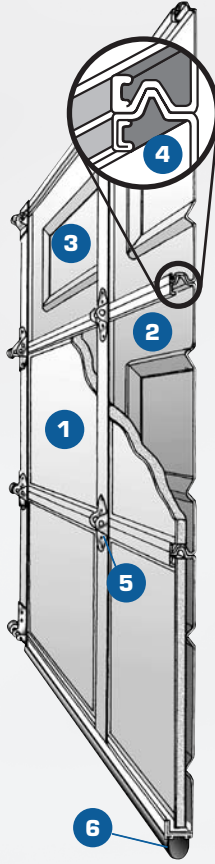

Enhance the beauty of your home with our ranch panel design. These stylish garage doors complement the look of single story homes and two story homes alike. Made from heavy-duty woodgrain embossed steel, they are available in five popular colors. With or without insulation, these doors are maintenance-free, thanks to our sophisticated rust protection system. Add beauty. Add style—add Ideal Door® ranch panel doors to your home.

Due to printing process, colors may vary. Please request an accurate color chip.

## Features

- 1 Steel construction:** Both doors are made of heavy-duty 24-gauge steel. S2RSF includes 1 3/16" thick polystyrene insulation, with an R-Value of 5.8, for comfort and energy efficiency.
- 2 Maintenance-free:** Steel surface is rustproofed with hot-dipped galvanizing, prepainted inside and outside with a baked-on primer and finished with a baked-on polyester topcoat. Prefinished exterior surface can be painted to match the decor of any home.
- 3 Panel design:** Raised panel design features attractive woodgrain texture and deep embossing to complement your home.
- 4 Tongue & groove joints:** Provide a superior weather resistant seal at each section joint and ensure better door alignment.
- 5 Door hardware:** Galvanized steel hardware is standard on all models for corrosion resistance and durability.
- 6 Bottom weatherseal:** Replaceable weatherseal helps seal out the elements. Aluminum retainer will not rust.

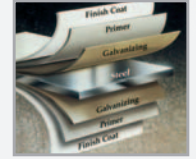

Door Width	# Panels/Windows Across	Door Height	Number of Sections	
			6'6" / 7'0"	8'1"
8', 9', 10'	2	6'6", 7'0", 8'1"	4	5
12'	3	6'6", 7'0", 8'1"	4	5
15', 16', 18'	4	6'6", 7'0", 8'1"	4	5

\* Uses (5) 19 3/8" sections for 8'1" height.

### Paint System

Steel skins are protected from the environment through the use of a tough, layered coating system, starting with a layer of hot-dipped galvanizing and a protective metal oxide pretreatment, followed by a baked-on polyurethane primer and a tough, weather-resistant polyester topcoat, creating a virtually maintenance-free surface.

### Patented Safe-T-Bracket™

Bottom bracket cannot, under normal circumstances, be removed while door is under tension.

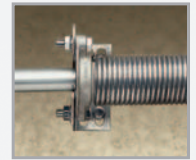

### Step Plate/Grip Handle

Color matched exterior step plate/grip handles are durable, attractive, and allow for safe opening and closing of your door.

### Galvanized Spring

Corrosion-resistant, long-lasting galvanized springs offer up to a 50% longer cycle life than industry standard springs. Due to some height and weight restrictions, not all product offerings include galvanized spring.

## Window Options

### Designer Classics

For the look of beveled glass, step up to our Designer Classics Window Lites. Available with brass or charcoal-colored caming, Designer Classics are made of tough acrylic for safety, durability and security.
